

Y Math presents:
Flying High with Math
Friday April 4, 3:30PM
ECE 125

Sharon Arroyo and Joerg Gablonsky, The Boeing Company

Sharon and Joerg are members of the Boeing Applied Mathematics organization. They partner with business units to develop applied math solutions and tools that help Boeing reduce costs, improve products and operations. In this presentation, Sharon and Joerg will give an overview of some of the projects on which they have worked and will give insights into what it is like to work as a mathematician in industry.

Mathematics is at the forefront of scientific and technological innovations. Y Math brings together industry professionals, research leaders and students with a view toward mathematical career opportunities outside academia. Support for Y Math comes from the Milliman Fund and the Pacific Institute for Mathematical Sciences.
