

Crisis Negotiation Simulation

JSIS 549 | Spring Quarter | Thursdays 3:30-6:20 | 4 credits
All Day Simulation May 14 & 15

NORTH KOREAN NUCLEAR CRISIS

Professor Robert Pekkanen

The Scenario: The year is 2024. The People's Republic of China is hosting diplomatic delegations from North Korea, Japan, the Russian Federation, South Korea, and the United States to re-start Six Party Talks and bring an end to the diplomatic standoff over North Korea's nuclear program.

The Opportunity: Play the role of an Ambassador charged by your home government to negotiate a solution that will serve your national interests and bring peace and stability to the Korean Peninsula. Teams are paired with high-level mentors, giving students the opportunity to work closely with senior U.S. diplomats, business executives, military leaders, and UW faculty. The highlight of the class is a two-day simulation exercise (May 14 & 15). Leading up to the simulation, students receive background briefings on the Korean Peninsula, crisis leadership and decision-making, and negotiation tactics.

Students describe the class as a once-in-a-lifetime experience. Don't miss out!
