

Are you interested in International Affairs? National Security? Working with Intelligence for the Government? Please join representatives from the Policy and Enforcement sides of the Department of Commerce Bureau of Industry and Security (BIS) for a conversation about what their Bureau does and how you can get involved. Our speakers are also happy to discuss broader topics like how to get a job in government, tips and tricks for networking and building connections, what government work is like, and more!

JOIN REPRESENTATIVES FROM THE POLICY AND ENFORCEMENT SIDES OF THE DEPARTMENT OF COMMERCE BUREAU OF INDUSTRY AND SECURITY (BIS) AND LEARN ABOUT EXCITING INTERNSHIP OPPORTUNITIES!

BIS is a licensing, regulatory, and enforcement agency that advances U.S. national security, foreign policy, and economic objectives by ensuring an effective export control and treaty compliance system and by promoting continued U.S. strategic technology leadership and a strong defense industrial base. At BIS, Policy makers, Analysts and Special Agents must work together to target nefarious actors and craft multinational policy. BIS is looking for problem solvers who can navigate a complex scientific and technological landscape and propose creative solutions that not only support U.S. national defense, but also ensures the health of the U.S. economy and the competitiveness of U.S. industry.

**November 6th at 1 PM on Zoom! Join the meeting [HERE](#)
