

Subject: Science Now Series Happening April & May

Hello,

We would love for you to join us for Engage's 2023 Science Now series!

These talks feature graduate students from a variety of STEM fields, who will be sharing their amazing dissertation research at Town Hall Seattle this April and May. These students have all completed training in science communication through Engage, so their talks are sure to be exciting and geared toward a broad audience!

You can find more information about each night's speakers and topics, as well as purchase tickets [here](#). If you are a UW student, contact negreg@uw.edu for a discount code.

Come join us for exciting stories about science happening at UW right now! Snacks and drinks are available for purchase at Town Hall Seattle as well.

We hope to see you there!

SCIENCE NOW:

UW GRADUATE STUDENTS SHARE
THEIR CUTTING EDGE RESEARCH

PRESENTED BY

5:30 PM at Town Hall Seattle

April 26 | May 3 | May 10 | May 15 | May 22

Come for the science, stay for the stories
Our speakers have spent the last three months honing
their science communication skills for this event!
